

NINETEENTH YEAR, NO. 6

GLEICHEN, ALBERTA, WEDNESDAY APRIL 29, 1925

SUBSCRIPTION \$2.00 A YEAR

GLEICHEN COMMUNITY WEEK--MAY 11th to 16th, 1925

One man cannot always accomplish his ideals but when a mass of men get together all enthused with the same idea and with a determination to make things ro, something is going to happen.

Gleichen's Big Community Week is in the making This project backed by the Board of Trade and boosted by every business man in town has for its object a practical demonstration of what you can do in buying right here in Gleichen.

It is a fact that most everyone will admit that there is too much cash leaving our town and province generally, going to the big houses in the east, who do nothing to-

wards the betterment of our districts in anyway, simply draining the loose cash from our own people without giving local men a chance to figure on any of these orders. Every retailer in Gleichen has his spurs on and is preparing to do his share in this publicity campaign, and will have a showing of values that will be of unusual interest to all our people.

They are not knocking the big mail order fellow in doing this. He is here to stay. But they are going to prove that they have some fight in them and that they can produce the stuff.

Our whole district is asked to support this import-

ant matter which comes of during the week of May 11th to May 16th.

The Board of Trade will give the affair their hearty support, and special evening features may be staged to add gimp for the week.

The next issue of the Call, May 6th, will be devoted almost entirely to this idea, and several hundred extra copies have been arranged for so that every home within twenty-five miles of Gleichen at least will have a Call to inform them of the values which our local men will have to the front.

MONDAY to SATURDAY--MAY 11 to 16.

EVERYBODY BOOST FOR GLEICHEN'S FIRST COMMUNITY WEEK

Gleichen Community Week, Monday to Saturday, May 11 to 16

IS TO VISIT GLEICHEN SHORTLY

J. A. McColl

Special representative of the Vancouver Board of Trade, Mr. J. A. McColl, is expected to arrive in Gleichen on Monday, May 11th, to visit the town and to see the grain handling facilities at the mill.

Mr. McColl is a well known man in the Vancouver Board of Trade and is a member of the Board of Trade of the Province of British Columbia.

He is expected to visit the town and to see the grain handling facilities at the mill.

L. O. O. F. DANCE PLEASANT AFFAIR

One of the most enjoyable dances of the season was given in the Community Hall, Wednesday, April 29th, by the Gleichen Oddfellows and as usual they were very fine hosts. Although financially the dance did not bring many dollars to the Hall Committee. Those people who attended had a real good time, and Lewis orchestra as usual was a big factor in the good time. The Oddfellows spent considerable time in decorating the hall which had a very fine appearance. The supper also was splendid.

MAY MAKE PAPER OUT OF STRAW

The investigation which has been made by the Provincial Government during the past year or more in the possibility of manufacturing twine, paper and other classes of paper out of straw, have proceeded to the stage where Premier Grisdale has decided to have an expert visit the province to go fully into the matter. Tests made for the province in eastern Canada have shown that it is possible to make twine from straw and it is estimated that a plant which would handle 25 tons per day of the coarser products would cost \$200,000, and it is hoped to interest capital in the project.

SAVING ON ALBERTA BONDS

A direct saving of \$30,000 a year in the interest charges on the recent issue of Alberta bonds, according to Mr. J. A. McColl, has been effected as a result of the lower rate of interest the bonds carry as compared with their first issue of ten years ago. The first issue was made in 1915 at a time when the interest rate was 6 per cent. The issue was made at 5 per cent. The saving is \$30,000 a year.

ODDFELLOWS ATTEND CHURCH SUNDAY

Celebrating the 100 anniversary of the founding of the order, the Independent Order of Oddfellows gathered in the Masonic Hall on the evening of Sunday, April 28th, and were formed into parade order under the supervision of Bro. S. E. Deane. At 7:30 sharp the parade moved off and marched to St. Andrew's Church. Rev. F. M. Gilroy, the rector gave the address, which dealt with the symbols of the order. The address was very interesting and much appreciated by those attending. Owing to the bad trade the Bessano and Neenaka brothers were not able to be present.

Bro. W. Brown is still selling bonds made under \$10 cents a leaf and has sold a considerable quantity of these bonds to contribute to this project at least until the next meeting when he will be present.

WILL PRESENT PIANO TO HALL NEXT TUESDAY

Next Tuesday night, May 5th, at 8:30, the ladies of the Gleichen Women's Institute will officially present their piano to the Gleichen Community Hall free of all encumbrances.

Along with the presentation they are arranging a very select program that will be a pleasant surprise to all interested in the hall, and invite everybody to attend, especially all those who have signed up the guarantee for the payment of the building.

Besides providing a good entertainment and the presentation the ladies will have an announcement to make that will be of great interest.

There will be a small charge of 25 cents for admission and 15 cents for children.

Do not miss this. Everybody welcome.

PREPARING FOR GREAT SPORTS DAY MONDAY, MAY 25TH

Posters have been issued announcing the Victoria Day Sports--May 25th--celebration and are now being widely distributed. The program is an excellent one and should attract a large crowd from all over the district.

The various committees are hard at work and leaving nothing undone to make this one of Gleichen's biggest and best day of sports yet recorded--and there certainly have been many many good ones.

All should keep in mind the big parade at 12:30. It will be unique and from that time on till the following morning there will be something doing all the while.

Keep saying "Victoria" sports at Gleichen, Monday May 25th.

MINUTES OF BLACKFOOT M.D. MEETING

Fourth meeting, 1925. Minutes of the regular meeting of the Council of Blackfoot M.D., No. 218, held in the municipal office on Tuesday, April 14, 1925, at 10:30 a. m.

Present: Reeve Thorne, Deputy Reeve McEwen and Councilors Maynard, Bauman, Dunlop and Law. Councilor Maynard subscribed to the oath of office.

Owing to the temporary absence of the reeve and deputy-reeve it was moved by Councilor Law and carried that Coun. Bauman occupy the chair.

The minutes of the previous meeting were read and confirmed on motion of Councilor Maynard.

The secretary then reported as follows:

1. That the assessment on our town lots had been reduced by the Court of Revision from \$400 to \$300.

2. That he had looked into the matter of the price of bridge spikes while in Calgary and on the advice of the reeve had purchased our requirements for the year.

3. That our member, Mr. J. C. Barker, had written stating that at the fall session of the legislature amendments would likely be made to the Domestic Animals Act and the Public Health Act whereby councilors could receive pay for time lost in attending their duties as laid out by these acts and also that the Department of Agriculture seemed very willing to co-operate with this council in their effort to control the weeds.

4. That the man for the strip of land and scenic animals Act and the Public Health Act whereby councilors could receive pay for time lost in attending their duties as laid out by these acts and also that the Department of Agriculture seemed very willing to co-operate with this council in their effort to control the weeds.

Coun. Maynard: That the accounts as of March 31st by the finance committee be paid. Carried.

Coun. Dunlop: That Mr. Stephens of the Field Crops Branch, Department of Agriculture, be requested to meet the council at the next regular meeting in May.

Coun. Law: That the account of the Bessano Hospital against J. P. Bauman be paid. Carried.

As the reeve and deputy-reeve were not present the reeve took the chair.

Coun. Maynard: That the accounts of the finance committee be paid. Carried.

ment of our town lots as revised by the Court of Revision be accepted. Carried.

The resolution of the reeve regarding a definite road policy that had been left over from the previous meeting was then read and discussed until the adjournment for lunch at 12 o'clock.

After lunch Mr. Barker of the Russell Grader Co., Mr. Orley of the Sawyer Massey Co. and Mr. Good of the Richardson Road Machinery Co. were each given a short time to address the council on road machinery. Each outlined the merits of their respective machines, quoted prices and asked for a share of our business.

Owing to the large amount of business requiring the immediate attention of the council the matter of purchasing road machinery was left over to be discussed at the next meeting.

Coun. Maynard: That we approve of the lease of the strip of land across 25-21-21-4 as read, that the reeve and secretary be authorized to sign the same on behalf of this council and that the matter of registration be left over for the present. Carried.

The attention of the council was drawn to the fact that none of its members was allowed either directly or indirectly to accept payment for work done for the municipality except for bridge and road work undertaken by the municipality in which case the limit of time for which pay could be accepted was 15 days at the rate of \$4.00 per day. Reverting to the resolution on a road policy considerable discussion took place on the various clauses, and many amendments were suggested. (Continued on another page)

Don't Forget--We sell the large genuine Sunkist Oranges, 3 Dozen for \$1.00

A tea your grocer recommends is usually good tea

RED ROSE

TEA "is good tea"

And most grocers recommend it.

Taxation and Obligations

Insistent demands continue to be made in many quarters upon the Dominion Government to follow certain financial and economic policies which may be briefly summed up under the following headings:

1. Reduce the Income Tax.
 2. Reduce the tariff.
 3. Reduce railway freight rates.
 4. Reduce ocean freight rates.
 5. Reduce all national expenditures.
 6. Lower the rate of letter postage.
 7. Commence paying off the national debt.
- Equally insistent demands are made upon the Government at Ottawa to:
1. Provide more employment.
 2. Develop natural resources.
 3. Increase immigration to promote such development.
 4. Construct great public works.
 5. Build the Hudson Bay Railway and various branch lines.
 6. Develop the St. Lawrence canals and power schemes.
 7. Increase the tariff to encourage home industries and increase employment.

Inasmuch as one set of demands is, in many respects, destructive of the other set, it is at once apparent that the Finance Minister has a real problem on his hands in endeavoring to steer a straight course for the ship of state. He cannot please all and it would be worse than useless to make the attempt.

At the same time it must be recognized, and it is generally recognized, that Canada cannot go on indefinitely without making a serious attempt to pay off its huge national debt which now rests like the dead weight of a wet blanket on the country, depressing industry, creating unemployment, and retarding development. With the exception of the demand for the reduction of the tariff, in regard to which there is a sharp difference of opinion, people as a whole would welcome and support all the demands enumerated in the first list mentioned above.

But how is taxation to be reduced in any effective degree and at the same time substantial payments made on account of the national debt? How are freight rates to be lowered and at the same time the deficit on the National Railways wiped out? How can national expenditures be substantially decreased and at the same time policies inaugurated for the development of natural resources, the construction of railways and other public works, and work created so as to do away with unemployment?

When urging reductions in taxation it must always be born in mind that to meet interest charges on our war debt Canada requires to raise a larger sum annually than the whole budget of the Dominion not so very many years ago. In addition many other millions are required annually to pay pensions and otherwise provide for disabled soldiers. Costs of government, like the cost of everything else, is greater today than was the case ten years ago.

Nevertheless, the picture is not as dark as it may at first glance appear. Canada's export trade has fallen in the last few years to a consequent marked decline in Customs revenues, the export trade of the Dominion is steadily and even rapidly rising, which means that we are buying more at home and selling more abroad. In other words, Canada is becoming a more self-contained and self-supporting country, and this makes for national strength and future wealth and prosperity.

Unquestionably there are still many ways in which national expenditures can be reduced through the consolidation of government services, with consequent elimination of overlapping and duplication of services and much waste. The Civil Service at Ottawa is admittedly over-manned. In tackling this problem the Federal authorities may well take a leaf from the economy book of the Coolidge Administration at Washington.

The main lesson for the people of Canada to learn, however, is that for the time being they must forego those additional public works and services which can only be provided through large public expenditures. True, such constructive enterprises would provide temporary employment, but it would be only temporary, while the new debt thus created would not only defer the day of debt reduction, but would increase the present high weight of that debt. Money should only be expended on revenue producing services which will carry their own interest charges and add something to the general revenue and advancement of the country.

There is need for economy everywhere, but there is still greater need for hard work on the part of each individual citizen, productive work, work that will result in still further increasing the export trade of the Dominion and provide increasing traffic for our railways. Instead of holding out for the last dollar in profits and wages, Canadian manufacturer and workman must be willing to accept a little less and give a full day's output in service and work. Only by so doing will conditions be developed which will mean more work, better pay, permanent development, and ability to carry and discharge our national obligations.

Eight People in French Town

The smallest town in France has a population of eight inhabitants. This is Forteau, in Haute-Marne, but it is being closely pressed by Le Tarte-Gandran, also in Haute-Marne, with a present population of eleven, many of whom are quite elderly. Forteau's village roll is made up of a man, his wife, their five children and a nephew.

Manitoba Improving Roads

Since the inception of Manitoba Good Roads Act, 3,508 miles of road have been improved, 1,539 miles have been gravelled and 21½ miles have been paved within the province. During the year ended August 31, 1924, the total mileage graded was 261,405 miles and 117 structures in the way of bridges and culverts were constructed.

Long Exile Ended

Ex-King of Ashante Deported By British in 1900

Ex-King Prempeh of Ashante with his family and retinue, has just been released from a 24 years' exile spent in the Seychelles group of islands in the Indian Ocean. He formerly had 700 wives, twelve of whom he took into exile with him. He became a Christian in 1901, according to a story told by him to an interviewer at Liverpool and sent his 12 wives back. He intends to have only one wife when he gets home. Prempeh wears European dress, of which he is very proud, but he declared that it was not true he wore a top hat when he went to church. Captured by a British force in 1896, Prempeh was deported four years later. Twenty-nine chiefs went with him, of whom only three survive, but when he arrived on the Anchor liner Olympic at Liverpool he was accompanied, as stated, by a large retinue.

"DIAMOND DYES"

COLOR THINGS NEW

Beautiful home dyeing and tinting is guaranteed with Diamond Dyes. Just dip in cold water to tint soft, delicate shades, or boil to dye rich, permanent colors. Each 15-cent package contains directions so simple any woman can dye or tint lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings, everything new. Buy "Diamond Dyes"—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

Claim Medical Discovery

Dr. Martha Jones, research associate of the department of pediatrics at the University of California Medical School, claims the discovery of a cure for rickets. It consists of giving hydrochloric acid in small amounts in a patient's milk. The discovery resulted from finding that acid reduced the malady in puppies.

UNSURPASSED FOR CHILDHOOD ALMENTS

Mrs. Howard King, R.R. No. 5, Truro, N.S., says:—"I am the mother of four children and have always used Baby's Own Tablets when any of them needed a medicine, and I can recommend the Tablets as being unsurpassed for childhood ailments." Thousands of other mothers agree with Mrs. King as to the merits of the Tablets. There are thousands of homes throughout Canada where the Tablets are always kept on hand in readiness for the least sign of any of the minor ailments which afflict little ones. Baby's Own Tablets never fail to regulate the stomach and bowels, thus they banish constipation and indigestion; break up colds and simple fevers; relieve colic and bring the baby through that dreaded teething period in safety. The Tablets never do harm—always good—as they are guaranteed absolutely free from any injurious drugs. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Saskatchewan Golf Tourney

The Moose Jaw Golf Club executive has recommended to the provincial association the holding of the provincial tournament at Moose Jaw in the week of August 19, and that F. R. Nason, of Moose Jaw, be the tournament secretary.

The ease with which corns and warts can be removed by Holloway's Corn Remover is its strongest recommendation. It seldom fails.

Many Canadians Return

Coming Back From the United States in Large Numbers

Immigration to Canada, during February, amounted to 2,210, an increase of 263 over the previous month, according to a statement issued by the department of immigration and colonization. Of the February arrivals, 512 were British, 890 from the United States and 868 from other countries. Canadians returning from the States after having been in that country for six months or over, and declaring their intention of remaining in Canada permanently, totalled 2,012. Since the beginning of the fiscal year the number of such returning Canadians is 41,044.

Japs Stop Work

Japan has suspended the work begun on the electrification of about 440 miles of government owned railways.

For Sore Throat Use Minard's Liniment

W. N. U. 1572

After Every Meal

Pass it around after every meal. Give the family the benefit of its aid to digestion. Cleans teeth too. Keep it always in the house.

Wrigley's

"Costs little—helps much"

Weekly Newspaper Man Passes

The Late R. N. Whillans Was Well Known in Alberta

R. N. Whillans, well-known in this district and employed on the staff of the Edmonton Bulletin 29 years ago, passed away peacefully at Peace River Crossing after a long illness.

Mr. Whillans and his family came to Edmonton from Ottawa 29 years ago. He was editor of the Toilett Mercury for some time, and 10 years ago established the Standard at Peace River Crossing. He returned from Colorado, where he had been for the benefit of his health, three weeks ago.

The deceased leaves a widow and two daughters. Mrs. Dunning and Miss Jean Whillans who all reside at Peace River Crossing. He was about 48 years of age.—Edmonton Bulletin.

Enthusiastic About West

Woman Rancher Anxious to Have Others Come to Canada

Miss P. Carlisle, an English authoress, who recently took up ranching near Calgary, has become so enthusiastic about the west that she is making special efforts to induce hundreds of well educated and wealthy English women to come to the Dominion.

This literary rancher arrived at St. John from London, and is now at Canadian Pacific steamship Montclare. She has been lecturing and writing newspaper articles in England on opportunities in Canada, and will now endeavor to interest the government in getting English society women to take up ranching here, and will also render all assistance possible.

Earth's Crust Best Radio Wave Medium

Washington Man Claims to Have Perfected Underground Transmitting Set

A contention that the earth crust is more efficient in transmitting radio waves than the air, was made known at Washington by Dr. James H. Rogers, who said that he had perfected an underground transmitting set. "Successful communication with the Pacific coast by use of a 350-watt tube set placed underground at Hyattsville, Md., was made in tests, he said.

Dr. Rogers hopes to accomplish trans-oceanic broadcasting with a 600-foot cable antenna he intends to lay underground.

John E. Hardman, for many years a well-known mining engineer of Montreal, with affiliations in many parts of Canada, is dead, aged 68.

What Pretty Girl Did for Sick Stomach

Miss E. Rich of Brooklyn, N. Y., says: "I don't know what the cause was, but every few days my stomach would feel all bloated up with gas, my appetite was poor and I felt sick to my stomach—to say nothing of headaches."

"I never thought of using Carter's Little Liver Pills until nothing seemed to help. After using Carter's I felt relieved at once—and now as soon as my stomach talks back I answer with Carter's and have the last word."

Recommended and for sale by all drug stores, 25c.

Will Race to North Pole

Icelander Anxious to Reach Arctic Ahead of Amundsen

Giving details of the plans for the British North Pole aerial expedition, on which he intends to start soon, Grettir Agnarsson, a young Icelander, says in the Daily Express that the final dash to the Pole will be made in a small non-rigid airship and not an airplane. The ship will be 150 feet long and similar to those used for patrolling the English Channel during the war, but especially designed to withstand the exceptional polar conditions. The airship will carry four passengers, a 30-day food supply, special cooking stoves and spare gasoline as ballast.

It will also take a small, light sled, on which, in case of accident, enough food can be packed to last until the crew find their way back to the base ship or reach the Alaskan coast.

Agnarsson is eager to beat Captain Amundsen, the Norwegian explorer, who plans to make a similar expedition, also to start in May.

The expeditionary ship, a small sailer called the Iceland, is now being equipped at Falmouth, whence it will sail for Liverpool. A specially designed deck has been added to accommodate the airship. The expedition will leave Liverpool for the north May 1.

Improved Conditions in Alberta

Agriculture Improving On Account Of Prevailing High Prices

Evidence of improved conditions in the province of Alberta is contained in the various reports which go to make up the annual review of the operations of the department of agriculture, which were presented for the year 1924 to the legislature recently by the minister of agriculture.

As has been previously reported, the total value of all agricultural production for the last year is estimated at \$217,447,898.23, as compared with \$209,191,100 for 1923.

The deputy minister, in his report, comments on the prosperous conditions resultant from the higher prices, in spite of the lower yields. He points out that very little feeding of beef cattle was undertaken this season, but the indications were that those who had undertaken this would be reasonably well rewarded. He comments particularly on the splendid growth of the dairy industry. Great improvements, says the deputy minister, have been made in the matter of winter feed for dairy cows. There are between 2,500 and 3,000 silos in the province, most of which have been erected within the past five years. This means a steady advance in the line of winter dairying.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subjected to the attacks of worms is always unthrifty, and will be stunted in its growth. It is a mercurial act to rid it of these destructive parasites, especially when it can be done without difficulty.

Employment Shows Improvement

Trend is More Favorable Now Than Last Year

The trend of employment in Canada at the beginning of March was favorable; the upward movement, though rather slight, contrasts with the downward tendency indicated on the same date of last year. According to reports received from 5,696 firms by the department of labor, 715,158 persons were on their payrolls, or 6,921 more than were on their payrolls in February, 1924. Manufacturing was decidedly more active, but employment in other divisions on the whole showed declines, partly seasonal in character.

To Erect New Stations

The Melbourne Herald states that four beam type wireless stations, two for receiving and two for transmitting, are to be erected immediately at a cost of £120,000 with the object of working traffic direct with Britain and Canada. These are part of the imperial chain of wireless stations of the new beam type.

Use Movies For Cures

Swedish hospitals for the insane are using moving pictures to treat insane patients. The diversion is said to be helpful in effecting cures. The same method is being used in tubercular sanatoriums.

Love and Not Fear

The Bishop of London says that it would be almost comic now to hear a sermon about hell. Which means that the basis of religion is at last being interpreted as love and not fear.

Youthful Farmers in Alberta

Sixty British boys who have been learning farming at the Vermilion agricultural school, have been sent out to various farms in Alberta for practical experience.

Minard's Liniment for Colds

The H. B. Line

Western Provinces Must Get Behind Project to Force Completion

The real reason why the Hudson's Bay Railway had not been finished, said Colonel Webb recently, was that the west was not united in its demand for the line. We have been under the impression all along that the chief obstacle to the early completion of the project was the sustained opposition of powerful interests in other parts of the Dominion, which feared that it would adversely affect their pocket-books; but if lack of unanimity in the west is at the bottom of the delay, that should be easily corrected, as far as Manitoba, Saskatchewan and much of Alberta is concerned. The Hudson's Bay Railway will never be completed unless the prairie provinces force the completion of it; and if these provinces do not think the benefits that will accrue from the line are sufficient to warrant their getting together and presenting a united front to the opposing interests, they do not deserve to have this shorter and more economical route to Europe.—Regina Leader.

Nothing Else Builds Him Up So Much

So Says Mr. Allan McMullin of Dodd's Kidney Pills

Nova Scotia Man Was Unable to Move in His Bed, But Dodd's Kidney Pills Brought Him Relief.

Upper Grand River, N.S.—(Special).—"I am more than thankful to Dodd's Kidney Pills, because they have helped me so much," states Mr. McMullin, a well known and highly respected resident of this place. "I know I could not live without them. Before I started taking Dodd's Kidney Pills I was so bad I could not move in my bed. I was suffering with rheumatism, lumbago and pains in my back. I could not rest day or night. I had to turn myself in bed with straps. After the first box of Dodd's Kidney Pills I noticed a great improvement. I am sorry I did not start taking them ten years ago. I will never be without them if I can get them. I cannot find anything which builds me up so much."

It is statements like the above that have made Dodd's Kidney Pills a household remedy throughout Canada.

Dead Germans Found in Scuttled Destroyer

Officers and Sailors Evidently Not Warned When Fleet Was Sunk

Workmen engaged in salvaging on the scuttled German destroyer, beached in Mill Bay, Scaja Flow, have discovered under the mass of wood, which completely concealed them, the bodies of five German officers and sailors. They evidently were not warned at the time the fleet was sunk by the German crews.

You Have to Know How

A Manitoba farmer bought 22 head of feeder steers ten months ago. He sold them the other day after spending \$25 per head on feed, at a net profit of \$28 per head. The farmer who doesn't know how will say this was a case of luck. The truth probably is that the Manitoba farmer won out in a bad cattle year because he knew how to buy in the first place and how to feed and finish cattle in the second place. Not every farmer does.—Calgary Herald.

Twenty-six per cent. of the gainful workers in Philadelphia in 1920 were women.

FOR HEADACHE, BILIOUSNESS, CONSTIPATION, INDIGESTION, KIDNEYS, LIVER, BOWELS.

Air Patrol Is Extended

All Provinces Excepting Prince Edward Island Will Be Covered

Surveys covering approximately 80,000 square miles will be undertaken by the Royal Canadian Air Force this year, in conjunction with the topographical surveys branch of the department of the interior. As well as photography work for survey purposes, the force will do considerable work in the photographing of Canadian historic sites. The forest patrol areas for the detection of forest fires has been extended this year. This season's work, which is the most extensive ever undertaken by the air force, will be carried on in all the provinces except Prince Edward Island.

A new feature will be a survey going down the Nelson River to Port Nelson, along the Hudson's Bay coast and up the Churchill. There also will be work in the Pas mineral area. The Prince Albert and Battleford sections will be surveyed in Saskatchewan. In Alberta, Jasper Park and the Brazeau forest reserve will be photographed. The Victoria, Fort Assiniboine and Red Deer sectional surveys will be included. An area near Stewart, B.C., will be taken.

The forest patrols will be spread largely over Northern Manitoba this year. In The Pas and Lake Winnipegosis country, and further west, the patrols will cover the eastern slope of the Rockies and the whole of the Clearwater reserve. The fisheries protection work in the Northern British Columbia coast will be extended this season. The survey work, it is understood, will commence late in April.

The Oil for the Farmer—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor.

It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

Spanish Women Seek Education

Work Much More Brilliant Than That Of Men

Spanish women, albeit slowly, are seeking higher education. During the academic year that ended in 1923 there were 368 female students at the institution as against 60 in 1917.

Pharmacy attracted 123 women, philosophy 105, science 78, medicine 46, and the law 6. They are good students, and their work is much more brilliant than that of the men, according to the university authorities.

Change Religion to Secure Divorce

The discovery that 20,000 Polish Catholic couples have obtained divorces by joining the Russian Orthodox Church is causing concern to the Polish Government. Measures are being considered to restrict the movement.

FOR Rheumatism

BAYER

ASPIRIN

Proved safe by millions and prescribed by physicians for

Rheumatism Colds
Headache Pain
Neuralgia Toothache
Lumbago Neuritis

Safe

Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate-acid of Salicylic Acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. H. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

for any lumber and machinery un-
der the year and that it be de-
clined among the divisions according
to the assessed value of each. The
motion was carried on the following
division: For the motion (Thames),
Macnaman, Dunstan and Daw. A-
sistant, Maynard and McLean.In connection with the appropri-
ate mill rate the sum of \$25,000.00
will be required to meet the current
expenses of this Municipality for the
year 1926, and the same is required
as was also discussed.Whereas, the assessable value of
all lands as shown by the last re-
vised, assessment roll amounts to
approximately \$5,000,000.00;Therefore, be it resolved and it is
hereby resolved that the Secretary-
Treasurer be and is hereby authorized
to levy and collect a rate of two
and one-half mills on the dollar for
the municipal purposes, two mills on
the dollar for supplementary revenue
purposes on all assessable property
throughout the Municipality three
mills on the dollar for the purpose
of providing for an educational tax
and ten mills on the dollar as a will
tax on all the above specified lands
that are subject to that tax. Carried.A letter from the Department of
Health, Ottawa, Ontario, has been
received by the Public Health Nurse
throughout the Province was read.
Letting from the Ministry of Tru-
stee of Sunny Range, Pigrovetree and
Yale School districts were also read
concerning the Council's favorably
considered the appointment of a public
health nurse for this municipality or
in connection with one or more other
municipalities. The motion was
declared lost.The Secretary be instructed to pre-
pare the Municipalities of the
Department of Public Works of the
Province of Ontario for the purpose
of constructing a bridge between sections
31 and 32 in 21-21. Carried.COUN. MAYNARD: That the pay-
ment covering emergency work done
in division 6 be passed and ordered
paid. Carried.COUN. DUNSTON: That the Secretary

carried.Mr. Richardson of the Salvation
Army was given an appointment to
address the Council. He briefly
outlined the institutional work being
carried on by that organization and
asked for a donation to help the work
along. He was told that the secre-
tary would advise him of the decision
of the Council on this matter.COUN. REASMAN: That we grant
Council. Reasman: That we make
grant of \$10.00 to the Salvation
Army for their hospital work at
Calgary. The motion was declared
lost on the following division: For
the motion Councilors Daw,
McLean, Dunstan, Maynard and
Reeve Thorsen.COUN. DAW: That the secretary
be authorized to purchase a new
municipality driven 1925, such sum

Authorized Ford and
McLaughlin DealersNow is the time to have your Ford put
in shape for spring. We are forwarding
to all Ford owners in this district a pamph-
let showing our flat rate labor charges.If you wish any work done you have
only to look at the chart and know exactly
what it is going to cost. If you do not re-
ceive one of these pamphlets call or drop a
line and we will be pleased to forward one
to you.We have at the present time some good
buys in second hand cars. It will pay you
to call and inspect these cars.

SHOES!

Last year the shoe that was our greatest seller
the shoe that gave the most comfort and wear, sold for
\$6.75This year this same shoe, which has been treated
to resist ammonia, now sells for \$6.75Other Work Shoes from \$3.00 up.
LEATHER IS OUR GAME.

The Success of the Coach
as McLAUGHLIN-BUICK
Builds ItEVERYONE who has seen the Coach as
McLaughlin-Buick builds It knows
why this Coach has received such sweeping
public approval.The McLaughlin-Buick Coach is a real
closed car—built to McLaughlin-Buick's high
closed-car standards. Finest body. Graceful
lines. Two wide doors enable rear seat pas-
sengers to enter or leave either door without
disturbing people in front seats. DUCO fin-
ish. Different colors for each of two Coach
models.Every detail of McLaughlin-Buick comfort, of
dependability and economy is present in
this Coach. It is a real Coach model. Yet the
prices are lower than you'd expect to pay for
such quality.Gleichen Motor Co.

SUCCESSFUL CROPS

SEED is the vital factor in the whole crop process. Successful crops can come only from clean, vigorous seed.

The selection of the seed best suited for your locality may mean the difference between a good and a bad crop.

Make full use of the free advisory service of your nearest agricultural college. They can help you to avoid mistakes.

The Race is On

In response to our advertisements we have pleasure in announcing the past ten days have brought us several challenges to fill orders which were going out of town. In every case we've sold the goods, and we appreciate the opportunity to prove our ability to cope with any outside house.

THAT'S THE SYSTEM

Every dollar spent in Gleichen adds to value of your farm and helps boost the old town.

TOWN AND DISTRICT

Alden Smith has moved his family from Calgary back to their farm at Gasden Springs.

Mr. and Mrs. Downey are happy in the arrival of a 13½-pound daughter last Thursday, April 23.

James Young, wife and family have moved into town from their farm north of town and now occupy the Bisset residence.

Don Biefer returned to Gleichen last week from Calgary, where he broke his leg some weeks ago. His friends are glad to see him about once more.

F. W. Crandall paid Gleichen a visit Monday and is looking fine after a trip to New Orleans and other United States cities and says he saw no place where the prospects were better than right here in the Gleichen district. He would like to remain here, but is making his home again here with Mrs. Crandall's health. He is still a great booster for Southern Alberta.

Following the obtaining of a mass of documentary evidence, the Alberta Coal Commission will commence the holding of sittings as follows: 22d motion, May 8 to 8; Calgary, May 11 to 13; Drumheller, May 14 to 15; Lethbridge, May 18 to 20; Blackfoot, May 21 to 23.

It is surprising the amount of information that is conveyed by a map, and that too in a few moments. What would take hours of reading to obtain from a book can be secured from a good map in a glance or two. This facility of maps for imparting information readily and quickly cannot perhaps be better illustrated than in a new map just issued for free distribution by the department of Interior at Ottawa under the direction of Hon. Charles Stewart, the minister. It is called "The Land Map of Southern Alberta" although the word "southern" in the title is in need of some explanation. Alberta is larger than is commonly thought, the tendency being to leave out of consideration the "new known northern half. This map portrays the province from the U. S. boundary to about 200 miles north of Edmonton.
